

2013 ROOKIE RETRO

Leaf is pleased to announce the long awaited return of one of the hobby's most exciting chase products, **2013 LEAF ROOKIE RETRO**. Once again, this release provides collectors the ultimate chase of the hobby's most beloved graded rookie cards and signed buyback rookie cards. This year's product has been reworked slightly to feature twice the number of premium hits in an effort to make even more powerful high-end cards available in this release.

In addition, Leaf is excited to bring to the hobby the newest technology available for use with its already successful Metal technology. **MATRIX** technology will be featured prominently in this release. This exciting technology utilizes colored etching in Metal to bring the collector cards that absolutely pop! The "Genetic Matrix" insert set will be featured on a 1 per pack basis and will have multiple parallels as low as 1/1!
